

ECB PITCH ADVISOR SCHEME

NEED HELP OR ADVICE IN RELATION TO YOUR PITCH OR OUTFIELD?

NOT SURE HOW YOU CAN MAKE YOUR SQUARE PLAY BETTER?

Then our Pitch Advisory scheme is here to help!

We have 3 ECB Trained Pitch Advisors in Sussex. All 3 are qualified and insured to come to your ground and give advice on how you can make improvements. Importantly this isn't just for pitches that aren't performing well, this is about advice that will save you money in the long term.

Many club pitches which perform ok can have underlying problems which are costly to resolve in the long term yet easy to resolve in the short term. A visit from a Pitch Advisor can help you save money by identifying these issues at an early stage.

There are 2 options for a visit:

- 1) Full ECB "Performance Quality Standard" visit. This will involve the advisor assessing the pitch in full against nationally accepted criteria. This is an in depth report, with objective testing, which will provide a significant number of positive recommendations for the long term health of your square. Cost £250 + Travel
- 2) Mini report. This visit will provide a quick inspection of your square, with a core sample taken and a short written report. Cost £100 + travel

We would also recommend a follow up visit after either of these options to ensure that any changes are progressing as planned. The cost of this would be just £50 + Travel

For more information or to book a visit, please contact:
