How to be fair when marking an umpire

If, prior to the start of the game, the following conditions apply, then when the teams enter the field of play an umpire has 10 marks:

He is at the venue 45 mins prior to the start.

He correctly presides over the coin toss.

He is dressed in the appropriate attire.

He demonstrates to both Captains he is in control of the situation i.e. in regard to spare balls, timings, scorers, issues with sightscreen, sawdust etc.

When deducting points from an umpire please consider the following.

Is it an imagined error and not definite.

Is it a one-off error or perceived error (if one-off please don't deduct multiple points)

Is the umpire demonstrating that he is in control of the game, i.e. over-rates, intervals for drinks/tea, substitutes and times?

Does the umpire position himself correctly?

Does the umpire appear to be concentrating fully, i.e. not in continuous conversation with fielders?
